# Background

**world's wealthiest individual, net worth estimated at \$852 billion**

## Early Life & Education

**Birth & Family:** Born in Pretoria, South Africa. He has described his childhood as difficult due to his parents' divorce in 1980 and severe bullying at school.

**Early Talent:** A self-taught programmer, created a video game called Blastar at age 12 and sold it for \$500.

**Relocating:** To avoid mandatory South African military service and seek better economic opportunities, he moved to Canada at age 17, obtaining citizenship through his mother.

**University:** He attended Queen's University in Ontario before transferring to the University of Pennsylvania, where he earned dual bachelor's degrees in physics and economics in 1997.

**Stanford Dropout:** In 1995, he enrolled in a PhD program at Stanford University but dropped out after only two days to pursue opportunities in the burgeoning internet industry.
